

Job Opportunity for Specially Appointed Assistant Professors by the University of Toyama "Employment Support Project for Young Researchers (Women Only, Foreigners Welcome)"

In the 4th Medium-Term Goal, the University of Toyama aims to build a foundation for sustainable creation and development as a base for accumulating knowledge by increasing the diversity of researchers, including young researchers, women, and foreigners. The medium-term plan calls for the strengthening of international networks and the formation of a base for accumulating knowledge through the assignment of foreign faculty members (researchers).

In addition, with the aim of further expanding international joint research and international research projects, as well as raising the level of research capabilities by spreading and expanding to interdisciplinary research, the University will establish the "Center for the Formation of Global Researchers" as a university-wide organization in 2024 and is promoting the development of management functions such as international research exchange.

For these reasons, this project aims to support the employment of young researchers (women only, foreigners are welcome) who can actively contribute to international collaboration activities, etc., and to promote and accelerate research that has the strengths and characteristics of our university.

In this project, we will call for applications for the attached "areas of specialization" from faculties that wish to hire specially appointed assistant professors, and after a university-wide selection, we will hire specially appointed assistant professors.

1. Number of Recruits	Up to 4 people
2. Affiliation, etc.	The specially appointed assistant professors selected for this project belong to one of the following faculties: Humanities, Education, Social Sciences, Science, Engineering, Sustainable Design, Medicine, Pharmaceutical Sciences, or Arts and Design, and will be assigned to the Center for the Formation of Global Researchers. In addition, they shall actively engage in international research activities and engage in education and research activities with independence.
